Hi Dear Student,

China Education Panel Survey is the first large-scale, nationwide, and longitudinal social survey of junior high students in China. It is jointly conducted by the National Survey Research Center (NSRC) at Renmin University of China and academic institutions throughout the country. Last year, we surveyed nearly 20,000 students as well as their parents, homeroom teachers, subject teachers and school administrators; you are one of them and we appreciate your participation. This year, we hope all of you can fill in another questionnaire to help us understand your growth and progress you made during this period.

There are neither right nor wrong answers to these questions and your answers will not be evaluated as part of your academic record. We pledge here that under *the Statistics Law of the People's Republic of China*, we will hold all the information you are going to provide in strict confidence and it will never be given away to any individual or institution. Thank you for your cooperation.

When answering a multiple-choice question, please circle the number of your choice; when answering a blank-filling question, please write down words or numbers on the lines in the square brackets.
