Hi Dear Parents,

China Education Panel Survey (CEPS) is the first large-scale, nationwide, and longitudinal social survey of junior high students in China. It is jointly conducted by the National Survey Research Center (NSRC) at Renmin University of China and academic institutions throughout the country. From 2013 to 2014, we surveyed nearly 20,000 students as well as their parents, homeroom teachers, subject teachers and school administrators. Through scientific sampling, your child and you have been chosen as subjects of this survey. This year, we hope we can keep following the growth and progress of your child through this follow-up survey. Therefore, we are asking you here to complete this questionnaire and we are very grateful to your understanding, support and help!

There are neither right nor wrong answers to these questions and your answers will not be used to evaluate your child and you. Therefore, please answer all the questions truthfully based on your own ideas and experiences. We pledge here that under the *Statistics Law of the People's Republic of China*, we will hold all the information you are going to provide in strict confidence and it will never be given away to any particular individual or institution. Thank you for your cooperation!
